VistaPrint.com - General Instructions Self-Care Punch Cards

Vistaprint.com business size cards are a standard business card size (3.5" X 2"). They can be ordered in small quantities and in several card stocks and finishes. Printing is in full colour, on both sides of the card.

Once you have paid for your order, you will receive an email from Energy Magazine that contains the file(s) for downloading to your computer. You should receive one image file and one appointment information file. These instructions will also be included in the email so you can download them if you desire.

Open the file titled self-care-punch-card-back-re.pdf in Adobe Acrobat Reader or Adobe Acrobat Pro. This file is a writeable PDF. There are five lines available for you to add your personal and/or practice information. Type in your information. Save the finished document to your computer as a PDF file.

You are now ready to upload and order your cards through VistaPrint. (Note: you can only choose one front side for your order, either 4, 6 or 8 circles.)

Note: The following directions are written based on the Practitioner Appointment Cards but the directions are the same for the punch cards.
